Composition of Number

Through all of these activities children are beginning to gain an understanding of the composition of number.

In Nursery we want children to have a mastery of numbers from 1-5.

In Reception they have a mastery of numbers from 1-10.

Numeral Recognition

- We see numbers everywhere – highlight these numbers to your child

- When playing games we can use dice with dice patterns but also with numerals
- Incorporate numerals alongside quantities to immerse children in them

Numicon

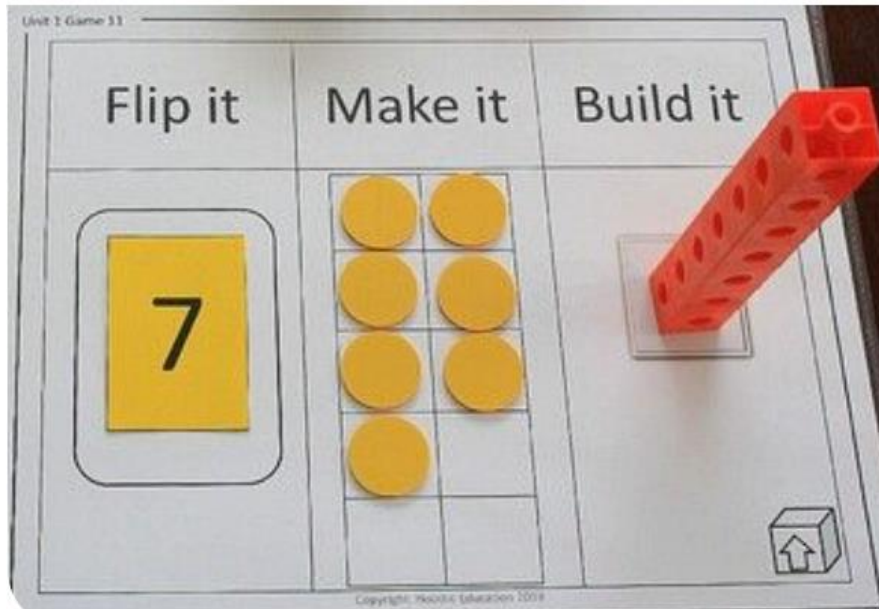

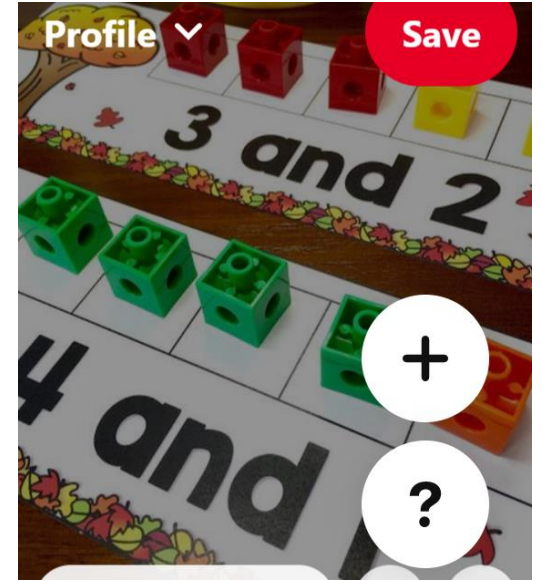

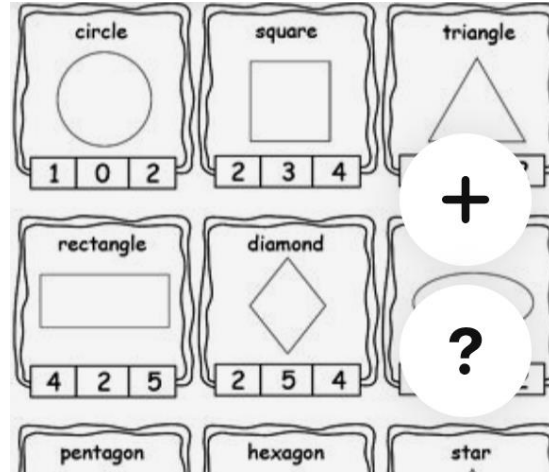

- Supports children's learning of number in a concrete way
- Supports ordering numbers
- Counting
- Subitising
- Composition of number

Shape, Space and Measure

- Recognise and describe 2D and 3D shapes
- Use language to describe position – in, on, under, behind, in front
- Use shapes to make pictures and structures
- Build structures by copying pictures

Problem solving

- Using their understanding of number, numerical patterns, shape, space and measure children can solve every day problems
